HEADQUARTERS AIR COMBAT COMMAND
LANGLEY AIR FORCE BASE, VIRGINIA**

June 19, 2001

MEMORANDUM FOR SEE DISTRIBUTION

FROM: HQ ACC/SGOP
162 Dodd Blvd
Langley AFB, VA 23665-1995

SUBJECT: FY02 FINPLAN – Team Aerospace Funding Requirements (TAFR)

The Air Force Medical Operations Agency (AFMOA) established guidance for implementing TAFR in FY02 (see atch 2). The TAFR will be available on the AFMOA/SGZE website by 29 Jun 01. The website will also have instructions on the program's use.

Put all FY02 bioenvironmental engineering (BE) requirements in the TAFR; entering other team aerospace requirements is optional at this time. The TAFR includes BE inputs made during last year's budgeting data call; update that data as necessary. Although TAFR accommodates several funding sources, continue to identify requirements through existing processes. Load information onto the TAFR website no later than 31 Jul 01. Also, provide a copy of your inputs to your resource management office.

My point of contact is Major Ron Marchioni. Contact him at DSN 574-1273 or accsgop.bioengineer@langley.af.mil if you have any questions.

MARK A. HAMILTON, Col, USAF, BSC
Chief, Aerospace Medicine Branch
Office of the Command Surgeon
