MEMORANDUM FOR ALMAJCOM/SG
FOA-DRU/CC

MAR 7 2000

FROM: HQ USAF/SG
110 Luke Avenue, Room 400
Bolling AFB, DC 20332-7050

SUBJECT: Radiation Exposure Dosimetry for Personnel Working in Classified Projects

It has come to my attention that health protection may be disregarded in the interest of national security. It is imperative personal dosimetry be utilized for monitoring radiation exposure with the results documented by the USAF Master Radiation Exposure Registry. Title 10 Part 20 of the Code of Federal Regulations and AFI 48-125, *The USAF Personal Dosimetry Program*, are explicit in their requirements for dose monitoring regardless of the nature of the exposure. This is readily achievable without compromising security. Please disseminate this notice to all classified programs within your command.

If you have any questions, my point of contact is Lt Col Kristin Swenson. She can be reached at AFMOA/SGOR, 110 Luke Ave, Room 405, Bolling AFB, DC 20332-7050, (202) 767-4308, DSN 297-4308 or by email: kristin.swenson@usafsg.bolling.af.mil.

PAUL K. CARLTON, JR.
Lieutenant General, USAF, MC, CFS
Surgeon General
