**LANGLEY AIR FORCE BASE, VIRGINIA**

13 March 2000

MEMORANDUM FOR USACHPPM/DOHRS PMO  
ATTENTION: Mr William H. Monk

FROM: HQ ACC/SGOP  
162 Dodd Blvd, Suite 100  
Langley AFB VA 23665-1995

SUBJECT: Command Core DOHRS Build II Requirements Assessment

1. As requested, we have made a preliminary assessment concerning Command Core System's (CCS) capabilities to meet the DOHRS-IH Build II requirements provided by you. Our assessment is attached along with justification.

2. Several key outcomes should be noted. The initial DOHRS evaluation was significantly different from your assessment. The DOHRS' evaluation assessed that CCS met DOHRS-IH requirements as follows: Yes ~11%, No ~54%, and Unknown ~27%. Our assessment showed: Yes ~62%, No ~1%, and Unknown ~37%. These differences are highlighted in Figure 1.

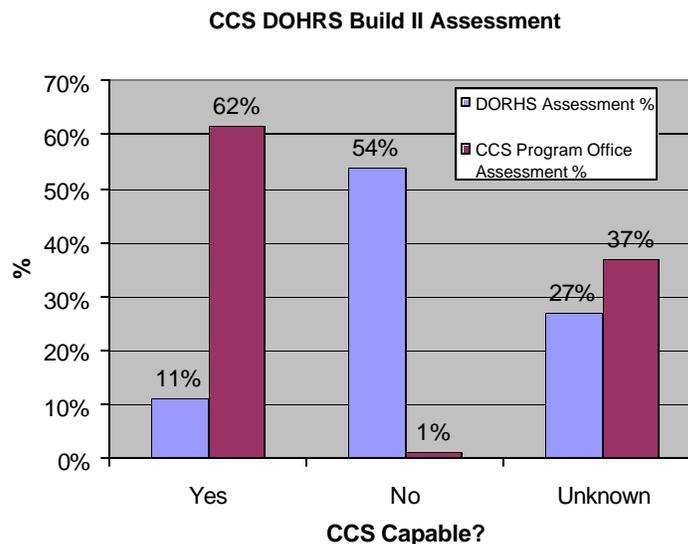

Figure 1. CCS Capabilities to meet DOHRS Build II requirements

3. The significant evaluation differences highlight the need for further evaluations and a clear convergence strategy to effectively take advantage of existing coding and experience gained from utilizing these functions.

MARK A. HAMILTON, Col, USAF, BSC  
Command Bioenvironmental Engineer  
Office of the Command Surgeon
