MEMORANDUM FOR ALMAJCOM/SGX

FROM: HQ USAF/SGX
110 Luke Ave, Room 400
Bolling AFB, DC 20032

SUBJECT: Standardization of MRDSS Reporting

The AFMS must maintain visibility of all resources that are postured in support of operational requirements. This will require that all unit type codes (UTC) listed in the Air Force-Wide UTC Availability System (AFWUS), including A-UTCs, be reported in the Medical Readiness Decision Support System (MRDSS). Please ensure your units are reporting all D-coded UTCs in the **UTC Readiness-Personnel Information Page** or the **Generation Missions Page** (i.e., DXX coded UTCs) in the MRDSS Unit Input Module. All A-coded UTCs shall also be reported in the **Generation Missions Page**.

Request that MRDSS be updated to reflect this new policy no later than 30 June 2003. Questions may be addressed to POC, MSgt Stacy Wingard, at DSN 297-0769 or e-mail stacy.wingard@pentagon.af.mil.
