

DEPARTMENT OF THE AIR FORCE
HEADQUARTERS UNITED STATES AIR FORCE
WASHINGTON, DC

3 April 2000

MEMORANDUM FOR SEE DISTRIBUTION

FROM: AFMOA/SGOE
110 Luke Avenue, Room 405
Bolling AFB, DC 20332-7050

SUBJECT: Assignment of Fully Qualified (43E3) Bioenvironmental Engineers (BEE) to
Mobility Positions

Bioenvironmental Engineering specialty will meet its readiness mission requirements by assigning only fully qualified BEEs to mobility positions beginning 1 May 2000. Our goal is to fill all mobility positions with fully qualified BEEs by December 2001. During this transition, non-fully qualified BEEs presently filling mobility positions may remain in-place awaiting normal rotation.

Each Command BEE should provide me with the position number for each BEE assigned to a UTC tasking based on the current approved April 1999 MRL UTC tasking. In order to track this initiative please complete the data sheet emailed to you. Return the completed sheet to me and Col David Potts, AMC/SGPB, via email by 21 Apr 99. Following approval of the 2000 MRL, we will update your listing.

A handwritten signature in black ink, reading "Forrest R. Sprester", is positioned above the typed name.

FORREST R SPRESTER, Col, USAF, BSC
Chief, Environmental and Occupational Health Division
Office of the Surgeon General
